### **Earnings Report**

This year Rasta Ites received one payment from Amazon.co.uk of £25.54.

Sales have been very slow for the whole of 2009.

Although some sales have been generated this quarter.

Total reaching £5.24 bringing a full total outstanding from Amazon of around £9.72 which is not enough for them to pay out.

Amazon.com balance stands at \$51.61 and has to reach \$100 before they pay out. There have been no sales or orders so far this quarter.

CD Baby owe us \$7 when I last checked. The affiliates link is not working at the moment. I have received no payments from them this year.

Sales from the Ites Store direct - I have not sold any of [brother Masimba's books](#). The last ones I bought have been circulated to the community here and in Europe. I still have 2 copies.

Moneys raised this year will be paid to the [Shashamane Settlement Community Development Foundation](#) to help fund the Shashamane School. You can make a direct donation to the school through paypal.

Please remember the following goods can be bought from Amazon: books, music, toys, software, hardware, cameras, kitchen equipment, tools and hardware, electronics and much more. You can also rent DVDs. From the States you can even get clothes, jewellery & musical instruments, and check out what movies are showing locally!!! Please enter through the [links at Rasta Ites everytime](#) to donate the commission to Rastafari

works.

CD Baby sell music direct from the musicians, thereby cutting out the middle man which means that the artists get more money from each sale and, of course, if you enter their site through any of the links at Rasta Ites, \$1 is raised for every CD sold.

Please, please, please remember I&I when purchasing items from the above stores and use the links onsite. Still do not buy something just to donate money; it is much better to donate money direct.
